

LuxROCK[®]

SOLID SURFACE GRANITE COUNTERTOP KIT

REAL STONE

AUTHENTIC GRANITE ELEGANCE IN A WEEKEND!

(...at a fraction of the cost)

COMPLETE KIT
COVERS UP TO
40 SQ. FT.

WELCOME TO A NEW DIMENSION IN STONE...

Now you can add a premium stone surface right over your existing countertop – this weekend – with the **LuxROCK™ Solid Surface Granite Kit by Daich Coatings**. It's a high performance authentically beautiful alternative to traditional granite and solid surface countertops that normally cost thousands to install.

LuxRock is **REAL STONE** that's both functional and decorative, with stunning mineral highlights and sparkling accents found in natural mined rock that you spread easily over top of your existing surface – with absolutely no need for special artistic or technical skill.

In almost no time at all, using common painting tools, you can add a luxuriously smooth new stone surface that looks and performs like real granite. But with no long wait time, no messy replacement construction – **and no scary price tag that locks you into the same countertop forever!** Easily and economically switch to a new look and color whenever you wish without compromise.

Everything is in the kit. All you need is the desire to add authentic stone elegance to your countertops and more!

SAVE THOUSANDS compared to installing traditional stone slabs costing \$3000 - \$5000

LuxROCK is a revolutionary stone resurfacing system. Brush it on it right over the surfaces you **already have** with no need for messy, expensive construction.

LUXROCK™ IS NOT A FAUX FINISH PAINT KIT Why compromise and settle for anything less than **REAL** stone?

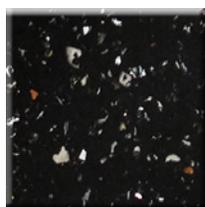

Transform your surfaces into luxuriously smooth, solid sparkling beauty you will love!

Your luxurious DIY GRANITE upgrade is here!

- Real granite elegance – **because it's STONE!**
- Stain, heat and impact resistant
- As easy as painting
- No complicated tools or skills required
- For countertops, vanities, tabletops, bar tops, and more!
- Resurfaces laminate, concrete, plywood, MDF, stone, pre-coated and solid surfaces
